

The Great Grid Upgrade

Eastern Green Link 3 (EGL 3) and
Eastern Green Link 4 (EGL 4)

nationalgrid

Stage 2 consultation on our proposals

National Grid Electricity Transmission is holding the next stage of consultation to hear your views on our detailed proposals for Eastern Green Link 3 (EGL 3) and Eastern Green Link 4 (EGL 4), two offshore high voltage electricity links between Scotland and England, with converter stations and associated onshore infrastructure.

Proposed onshore infrastructure in England would be located within the districts of East Lindsey, Boston, South Holland, Fenland, and King’s Lynn and West Norfolk and proposed offshore infrastructure in English waters. Onshore infrastructure includes underground cables, two converter stations and one substation.

EGL 3 and EGL 4 would play important roles in building a more secure and resilient future energy system by reliably transporting electricity generated in Scotland, particularly from offshore wind, to the Midlands and South of England.

This stage 2 (statutory) consultation will open at 12pm noon Tuesday 13 May and close at 11:59pm Monday 23 June 2025

Public information events			
Location	Date	Time	Address
Burgh le Marsh	Wednesday 21 May 2025	2pm – 7pm	Burgh le Marsh Village Hall, Jacksons Ln, Burgh le Marsh, PE24 5LA
